

WISE CHOICE EDUCATIONAL SERVICES

GUIDELINES FOR THE USE OF STANDARDIZED TESTS

1. Only legitimate home educators and registered private schools are eligible for the program.
2. The Basic Costs are for one-time use of material, scoring and interpretation, and not for the purchase of the tests themselves.
3. After testing, answer documents must be returned for scoring along with all test materials within 15 days after they have been received.
4. Wise Choice Educational Services makes no assumption that the tests have been administered according to the general and specific directions required by the tests and will not, therefore, certify the results to be descriptive of the person(s) being assessed.
5. For formal academic assessment using standardized tests, the home educator is encouraged to retain the services of a qualified tester. A qualified tester is an educator who has been certified by a provincial department of education to teach in a public school or other conventional school and has experience in administering standardized tests. The test results and interpretation aids will be sent to the parents .
6. The home educator agrees to help protect the confidentiality of the tests. No part of the tests may be reproduced, stored in a retrieval system, or transmitted, in any form or by any means, electronic, mechanical, photocopying, recording, or otherwise, without the prior written permission of the publisher.

I, the undersigned, certify that I will use these tests only with those child(ren) whose name(s) is(are) given here and for whom I requested the testing material.
